~~5hp Briggs and Stratton will not keep
running ...~~

Hi everybody im new to the site. I own a 1980 s argo 6x6 with a 16 hp briggs and stratton engine in it. I want to swap this engine to a 700 rotax but im wondering if this is too big of an engine for the running gear or if the 700 will overheat because it is air cooled? Any input at all will greatly be appreciated , thanks everyone!
