<p>This book helps students and researchers write better assignments, better dissertations, and better papers for publication. Characterizing academic writing as an integral part of the knowledge generation and dissemination process, it focuses on three main aspects: understanding research, documenting and sharing the process and results of research, and acknowledging the use of other people's ideas in the documentation. The authors use various samples of good as well as defective writing to illustrate the features of academic writing. They describe in detail the structure and contents of academic papers, especially conceptual and empirical research papers for journals. This lucidly written book will be a rich resource for MBA students and researchers working for MPhil and PhD degrees, especially in the fields of management, behavioural sciences and communications.</p>

<p>All students and professors need to write, and many struggle to finish their stalled dissertations, journal articles, book chapters, or grant proposals. Writing is hard work and can be difficult to wedge into a frenetic academic schedule. In this practical, light-hearted, and encouraging book, Paul Silvia explains that writing productively does not require innate skills or special traits but specific tactics and actions. Drawing examples from his own field of psychology, he shows readers how to overcome motivational roadblocks and become prolific without sacrificing evenings, weekends, and vacations. After describing strategies for writing productively, the author gives detailed advice from the trenches on how to write, submit, revise, and resubmit articles, how to improve writing quality, and how to write and publish academic work.</p>

<p>Using rich examples and engaging pedagogical tools, this book equips students to master the challenges of academic writing in graduate school and beyond. The authors delve into nitty-gritty aspects of structure, style, and language, and offer a window onto the thought processes and strategies that strong writers rely on. Essential topics include how to: identify the audience for a particular piece of writing; craft a voice appropriate for a discipline-specific community of practice; compose the sections of a qualitative, quantitative, or mixed-methods research article; select the right peer-reviewed journal for submitting an article; and navigate the publication process. Readers are also guided to build vital self-coaching skills in order to stay motivated and complete projects successfully. User-Friendly Features *Exercises (with answers) analyzing a variety of texts. *Annotated excerpts from peer-reviewed journal articles. *Practice opportunities that help readers apply the ideas to their own writing projects. *Personal reflections and advice on common writing hurdles. *End-of-chapter Awareness and Action Reminders with clear steps to take.</p>

<p>Are you confused by the feedback you get from your academic teachers and mentors? This clear and accessible guide to decoding academic feedback will help you interpret what your lecturer or research supervisor is really trying to tell you about your writing—and show you how to fix it. It will help you master a range of techniques and strategies to take your writing to the next level and along the way you'll learn why academic text looks the way it does, and how to produce that 'authoritative scholarly voice' that everyone talks about. This book is an easy-to-use resource for postgraduate students and researchers in all disciplines, and even professional academics, to diagnose their writing issues and find ways to fix them. This book would also be a valuable text for academic writing courses and writing groups, such as those offered in doctoral and Master's by research degree programmes. 'Whether they have writing problems or not, every academic writer will want this handy compendium of effective strategies and sound explanations on their book shelf—it's a must-have.' Pat Thomson, Professor of Education, University of Nottingham, UK</p>

<p>Now in its third edition, Academic Writing offers a succinct and practical introduction to the development of research papers across the disciplines. Structured around contemporary genre theory, which establishes the importance of context for effective communication, the text describes the writing process step by step, including how to formulate a topic; gather and properly document sources; develop strong proposals, introductions, core paragraphs, and conclusions; and refine the final draft. Additionally, readers will observe the progress and thought processes of Jenna, a first-year student, as she crafts her own paper. New to this edition are materials for instructors that include full-length research papers, PowerPoint slides, an exam bank, and ideas for study. Rich with such pedagogical features as chapter learning objectives, annotated passages that illustrate aspects of academic style, and a glossary, Academic Writing is a must-have textbook for students developing their research and writing skills.</p>
