I have a gm bedford 330 diesel engine (circa 1970 and marine equipped). I want to replace the existing fuel injectors however the existing injector bodies have no markings on their bodies. Please tell me the correct injector number to order (Lucas/CVA/Delphi). Thank you. Doug. Approximately how long will I have to wait for an answer?

The 220 and 330 engines used the CAV DPA rotary distributor pump and the timing spline on the pump has a master spline and groove arrangement so you cannot get the pump in wrong. The 300 diesel used an inline pump on some engines.
