Twenty-three year old model Charley Whitlock built a quiet life for herself after disaster struck four years ago. She hides beneath her beautiful mask, never revealing her true self to the world... until she comes face-to-face with her new photographer -- sexy, possessive Jude Anderson. It's clear from the first time she meets him that she's playing by his rules. He says jump, she asks how high. He tells her to unzip her cream Dior gown; she knows she has to comply. But what if she wants him to take charge outside of the studio as well? Jude Anderson has a strict "no model" dating policy. But everything about Charley sets his body on fire. When a tropical photo shoot in Hawaii forces the stubborn pair into sexually charged situations, their chemistry can no longer be ignored. They'll have to decide if they're willing to break their rules and leave the past behind or if they'll stay consumed by their demons forever. Will Jude persuade Charley to give in to her deepest desires? Recommended for ages 17+ due to language and sexual situations.

Tired of feeling like life is passing her by, Chloe Sinclair experiences a passionate encounter with a stranger she meets at a party, but her brief affair could have unexpected repercussions when she discovers that the stranger is actually cutthroat corporate raider Sterling Prescott, the man who is threatening to take over the TV station where she works. Original.

Organized around the central theme of homeostasis, FUNDAMENTALS OF HUMAN PHYSIOLOGY is a carefully condensed version of Lauralee Sherwood's HUMAN PHYSIOLOGY: FROM CELLS TO SYSTEMS. It provides clear, current, concise, clinically oriented coverage of physiology. Many analogies and frequent references to everyday experiences help students relate to the physiology concepts presented. Offering helpful art and pedagogical features, Sherwood promotes understanding of the basic principles and concepts of physiology rather than memorization of details and provides a foundation for future careers in the health professions. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Ever since Tillie Green's car accident left her with a severe limp, she's kept herself hidden behind her camera. Through the lens, she watches her family and classmates, spotting the small details and secret glances that tell a much bigger story than what people usually see. Students call her "Lost and Found," because her camera knows when you last had your headphones. Tillie is good at finding things, but she isn't prepared for Jake's request: to find his father. In a matter of days, Tillie goes from silent observer to one half of a detective duo, searching the college-town community for clues to explain Jake's dad's disappearance. When the truth isn't what Jake wants it to be, and taking photographs starts exposing people's secrets, Tillie has to decide what (and who) is truly important to her.

The May 2019 edition of Competition Power e-Magazine brings the highlights of the detailed Current Affairs of April 2019 under the name, "Newsmakers of the Month". This is followed by the one-liners of current affairs questions of March 2019 under the heading, "Current Affairs Zinger". exhaustive manner -"Twisted Ones" which will have questions with a higher difficulty level. -Latest format mock papers for various exams. -A Motivational Article -A Success story and an Interview Experience -Important study notes for various Government Exam -SBI Clerk 2019: Salary, Job Profile & Career Growth -FAQs for CAPF (Assistant Commandant) Recruitment 2019 -SSC CGL Previous Year Exam Analysis -LIC AAO Prelims 2019: Important Takeaways | Detailed Analysis -NTPC Previous Year Cut-off Validity: 12 Months

Phytoplankton ecology has developed from an understanding of taxonomy, species dynamics and functional roles, and species interactions with the surrounding environment. New and emerging technologies enable a paradigm shift in the ways we monitor and understand phytoplankton in a range of environments. *Advances in Phytoplankton Ecology: Applications of Emerging Technologies* is a practical guide to these new technologies and explores their application with case studies to show how recent advances have changed our understanding of phytoplankton ecology. Part one of this book explores how traditional taxonomy and species identification has changed, moving from morphological to molecular techniques. Part two explores the new technologies for remote and automatic monitoring and sensor technology and applications for management. Part three explores the explosion of omics techniques and their application in species identification, functional populations, trait characterization, interspecific interactions, and interaction with their environment. This book is an invaluable guide for marine and freshwater ecology researchers to how new technologies can enhance our understanding of ecology. Combines traditional techniques with new technologies and methods Explores the influence of new technology on our understanding of phytoplankton ecology Provides practical applications of each technique through case studies in each chapter

Cameron Heart is confident she will get a job with Grayson Cole, her older sister's friend and owner of a prestigious architecture firm, but never expects to fall in love with her new boss -- or for the feelings to be mutual.

The "The Cracker General Science Multiple choice questions Book " covers the new pattern multiple choice questions along with the previous years' questions that are expected to be repeated in the upcoming examinations 2019 like RRB JE, NTPC, SSC JE, SSC CGL, and others. In this book, we provide you all with detailed explanations of each and every question of Physics, Chemistry, and Biology. It will help the students analyze what is being asked in these examinations so that they prepare accordingly. Salient Features of "The Cracker General Science Multiple Choice Questions eBook": 1800+ Questions of Physics, Chemistry, and Biology Previous Years' Questions Detail Explanation of Physics, Chemistry and Biology Based on latest Pattern.

When 27-year-old pop sensation Brooklyn Heart steps in front of a microphone, her love songs enchant audiences worldwide. But when it comes to her own love life, the only spell she's under is a dry one. So when her label slots her for a Grammy performance with the sexy and soulful Jason Monroe, she can't help but entertain certain fantasies... those in which her G-string gets more play than her guitars'. Only one problem. Jason is a lyrical lone wolf that isn't happy about sharing the stage--nor his ranch -- with the sassy singer. But while it may seem like a song entitled 'Jason Monroe Is an Arrogant Ho' basically writes itself, their label and their millions of fans are expecting recording gold... They're expecting The Duet. A fun & sexy Romantic Comedy.

If someone had told me a year ago that I was about to fall in love, go on an epic road trip, ride a Triceratops, sing on a bar, and lose my virginity, I would have assumed they were on drugs. Well, that is, until I met Beckham. Beck was mostly to blame for my recklessness. Gorgeous, clever, undeniably charming Beck barreled into my life as if it were his mission to make sure I never took living for granted. He showed me that there were no boundaries, rules were for the spineless, and a kiss was supposed to happen when I least expected. Beck was the plot twist that took me by surprise. Two months before I met him, death was knocking at my door. I'd all but given up my last scrap of hope when suddenly, I was given a second chance at life. This time around, I wasn't going to let it slip through my fingers. We set out on a road trip with nothing to lose and no guarantees of tomorrow. Our road trip was about young, reckless love. The kind of love that burns bright. The kind of love that no road-map could bring me back from. \*\*Recommended for ages 17+ due to language and sexual situations.\*\*
