## ~~Build Your Running Body: A Total Body Fitness Plan for All ...~~

Body composition refers to how much of your body is lean muscle, organs, water, bone or fat. Most individuals are interested in increasing lean muscle while decreasing subcutaneous fat. Losing fat and gaining muscle is a key benefit of any exercise strategy, and running regularly can contribute to these desired results.

## ~~How Running Changes Your Body | The Active Times~~

If you aim to build lean muscle mass and you are running in the morning, make sure to have a light breakfast like a banana or some oatmeal. Long-distance running leaves you especially depleted, and you really want to avoid that while working on your muscle mass.
