say-or do-to her to get her to remember. At night she dreams of a tattered carnival tent and buttons being sewn into her skin. But during the day, she shelves books at the local library, trying to not let anyone know that she can do things-things like change the color of her eyes or walk through walls. When she does use her strange powers, she blacks out and is drawn into terrifying visions, returning to find that days or weeks have passed-and she's lost all short-term memories. Eve must find out who and what she really is before the killer finds her-but the truth may be more dangerous than anyone could have ever imagined.

Lies, secrets, and telekinesis-will they save Kayla, or destroy her?

Practical and creative activities to develop essential skills.

This is a prequel novella to the Underground Series and can be read at any time in the series. While Alice rampaged through Wonderland a different story was being told. One that never should have been forgotten. The Fae courts have always been separated. So different from each other they could never agree on what is right and what is very very wrong. Until now. A mistake long forgotten is quickly closing in and the two courts must now put all their faith in combining their powers by marriage. Lynne is nothing more than a caged bird. With only her books and plants to keep her company she will finally get the chance to be free when the Seelie Queen commands her to marry. The dark prince of the UnSeelie Court is nothing like Lynne would have imagined. Dashing and a bit broody he will capture her heart before she can even realize what has happened. But not everyone wants a happily ever after for these two

Fae. There are some who would revel in seeing them fall and in turn all of the Wonderland will burn.

Most girls' dream of being rescued by a handsome knight but for Lady Silory Bayroy that dream never really existed. She wasn't trapped in a dragon guarded tower or even imprisoned by a wicked stepmother. No, her fate seemed much crueler than that. She was trapped in her own room, unable to walk and it was her own fault. To make matters worse Silory's mother treated her like a dress up doll. Her only chance to escape her reality was by reading the books her father brought her. As time went on though, she longed to see the world the books described or learn the magic spells they contained. With no handsome knight to rescue her, Silory would have to break free on her own. In her struggle to do so, she discovers a hidden power deep within herself that sets off a chain of chaotic events

Business is about relationships. What's the secret to success? Like many talented business owners, Jack Green thought it was long hours, do-it-yourself dedication, and cut-throat competition. But he learns how wrong he was when time begins running out for his struggling business. In the middle of a sleepless night, Jack is given a chance to change things when a mysterious visitor appears from the past, promising to deliver nine keys that will salvage Jack's future--the keys to the city of influence. Jack then is thrust into an adventure with an extraordinary group of mentors who teach him the secrets to building strong professional relationships. The City of Influence is a humorous, insightful parable that will leave you ready to roll up your sleeves and change the way you build relationships from the inside out.

"Durst consistently defies expectations."—Publishers Weekly (starred review) From award-winning author Sarah Beth Durst, a standalone epic fantasy set in a brand-new world of towering mountains and sparkling cities, in which a band of aging warriors have a second chance to defeat dark magic and avenge a haunting loss. Twenty-five years ago, five heroes risked their lives to defeat the bone maker Eklor—a corrupt magician who created an inhuman army using animal bones. But victory came at a tragic price. Only four of the heroes survived. Since then, Kreya, the group's leader, has exiled herself to a remote tower and devoted herself to one purpose: resurrecting her dead husband. But such a task requires both a cache of human bones and a sacrifice—for each day he lives, she will live one less. She'd rather live one year with her husband than a hundred without him, but using human bones for magic is illegal in Vos. The dead are burned—as are any bone workers who violate the law. Yet Kreya knows where she can find the bones she needs: the battlefield where her husband and countless others lost their lives. But defying the laws of the land exposes a terrible possibility. Maybe the dead don't rest in peace after all. Five warriors—one broken, one gone soft, one pursuing a simple life, one stuck in the past, and one who should be dead. Their story should have been finished. But evil doesn't stop just because someone once said, "the end."

Marriage is hard. Living together in a committed, non-traditional relationship is just as hard, maybe more so. A less than completely satisfying level of happiness and fulfillment within a primary relationship is perhaps the most common human dysfunction in the modern world. So much so that we have come to accept something less than complete bliss in our marriages,

Read Free Chasing Power Ebook Sarah Beth Durst

partnerships and domestic arrangements as the normal state of things, an expectation born of human imperfection and the pressing need for constant compromise. We have redefined it as something less than the word bliss actually implies. Coming even mildly close to bliss is considered a rousing success, but even then, whatever sliver of unrest, anxiety and inconsistency remain can flare into a torrent of restlessness that could one day again render you single . In CHASING BLISS, Larry Brooks shows us a path toward bucking that trend through the channeling of our imperfection toward a perfectly functional awareness of how we might be contributing to the problem, while becoming coach and therapist when we're not. While repeatedly reminding the reader that some problems remain the province of professional counselors, CHASING BLISS holds up a mirror to the many ways time and apathy become toxic factors in reducing loving relationships to something less than how they began, with kindness, togetherness, sexual satisfaction and hope the price of growing apart while growing weary of each other. The book is divided into three sections: ten reasons why men might cheat... ten reasons why women might leave the nest for a better life... and an exploration of eight primary realms of relationship, the mastery of which becomes a tool chest of strategies and solutions that not only mitigate decline, but serve to refuel the chemistry and hope that once brought you together. This goes beyond the theoretical with specific actionable responses and alternatives to some of the most common challenges couples face, while clarifying tough, indisputable truths about the roles we play in our own domestic tragedies. Even if we feel - all the way to divorce court - that it was the other person's fault. This, promises the author, is the stuff your shrink will goad you into realizing for yourself, but without the weeks and months of therapy it could take to reach that point with clarity and purpose. It's

Read Free Chasing Power Ebook Sarah Beth Durst

all right here, in your face, unassailable and immediately useful in real life. In her Foreword to the book, Dr. Carrie Rubin says this: the beauty of this book is its power to be a tool for both relationship recovery and healthy relationship maintenance. For those in good shape, its advice will serve as a protective life vest, one that will keep you from sinking into troubled waters." Brooks knows from where he speaks, having been down the road to failure not once, but twice, and is now twenty years happily married to a woman that challenges him to be the best version of himself, with immovable consequences if he is not. "On paper we shouldn't work," he writes, "but we are living in a state I can only describe as bliss, if bliss is defined as inclusive of the trials and challenges that are inevitable and ready to rip you apart. Now we are stronger than the problems life throws our way, not because we are better or smarter than couples who don't make it, but because we are vulnerable to these truths and committed to the principles of interaction and loving partnership that are necessary to make it to the other side." These truths are the heart and soul of CHASING BLISS, a book for people who want to make love work, but fear they aren't up to it. With these principles, you just might become the couple that gets there through an understanding that bliss is not a destination or a finish line, but the road itself. Which, armed with empowered awareness and sensitivity, you can now actually pave with the good intentions that others blame.

Set in the magical world of Renthia, *The Queen of Blood* is Sarah Beth Durst's ambitious entry into adult epic fantasy. With the danger of Peter Brett's *The Warded Man*, heart of Naomi Novik's *Uprooted*, and lyricism of Patrick Rothfuss' *The Name of the Wind*, this is the first chapter in a series destined to be a classic. Everything has a spirit: the willow tree with leaves

that kiss the pond, the stream that feeds the river, the wind that exhales fresh snow . . . But the spirits that reside within this land want to rid it of all humans. One woman stands between these malevolent spirits and the end of humankind: the queen. She alone has the magical power to prevent the spirits from destroying every man, woman, and child. But queens are still just human, and no matter how strong or good, the threat of danger always looms. With the position so precarious, young women are chosen to train as heirs. Daleina, a seemingly quiet academy student, is under no illusions as to her claim to the throne, but simply wants to right the wrongs that have befallen the land. Ven, a disgraced champion, has spent his exile secretly fighting against the growing number of spirit attacks. Joining forces, these daring partners embark on a treacherous quest to find the source of the spirits' restlessness—a journey that will test their courage and trust, and force them to stand against both enemies and friends to save their land . . . before it's bathed in blood.

The Wonder Years Daylen Daniels and Chase McCoy are as different as night and day. Chase is the beautiful golden boy. Gorgeous, popular, and the quarterback of the football team. Daylen is the quiet introvert. Lovely curves, shy, and sees herself as an orchestra geek. After Day moves next door to Chase, a run-in with a bully, a domestic dispute, and one treehouse hideout, an impenetrable bond is made. As they grow up, their attraction for each other grows with them, but is it strong enough to risk their friendship? A party, a little game of spin the bottle, and a devious enemy could shake the very foundation of their friendship. Or it could start a tumultuous romance that spans decades. Take a journey with these two best friends through first love, heartbreak and tragedy from childhood to adulthood as the two find that
