This book deals with the life and works of the great Russian scientist Dmitry Ivonovich Mendeleev (1834-1907), discoverer of the Periodic Law of the Elements. Mendeleev's work had many features that were typical of advanced Russian natural science as a whole. He possessed a breadth of vision that led him

Work into many fields of scientific work. The main feature of Mendeleev's work was the importance he attached to linking theoretical work with practice, with life. As an epigraph to his Foundation of Chemistry he chose the prophetic words: "What science sows the people will reap." On whatever problem he was working, all
