This textbook is about ageing in Australia. It is aimed at people who work in aged care, students, volunteers and older people and their carers. Its central purpose is to provide the learner with important knowledge about ageing and health care services that will enable the learner to understand the key issues facing older people, carers, workers and communities today. The book provides practical care giving skills and identifies the learners attitudes about ageing.

This handbook presents an overview of studies on the relationship of active ageing and quality of life. It addresses the new challenges of ageing from the paradigm of positive ageing (active, healthy and successful) for a better quality of life. It provides theoretical perspectives and empirical studies, including scientific knowledge as well as practical experiences about the good ageing and the quality of later life around the world, in order to respond to the challenges of an aged population. The handbook is structured in 4 sections covering theoretical and conceptual perspectives, social policy issues and research agenda, methods, measurement instrument-scales and evaluations, and lastly application studies including domains and geographical contexts. Chapter 5 is available open access under a Creative Commons Attribution 4.0 International License via [link.springer.com./div](https://link.springer.com/)

The first point of reference for all OHS and environmental best practice and strategy

Access Free Guide For Aged Care Workers 2 Edition

providing operational guidance with examples to achieve optimal workplace safety and environmental sustainability.

Aimed at all nurses and healthcare assistants working in care homes, this invaluable, unique and jargon-free resource will help staff deliver skilful care, prevent poor practice, and build knowledge and confidence when working with older people. Grounded in everyday practice, this handbook promotes professional and person-centred care that is safe, high-quality, caring, and compassionate.

The Australian Carer: A Training Manual for Ageing Support, 5th Edition addresses the Certificate III in Individual Support: all core units contextualised to the aged care environment with an additional eight electives. The reader-friendly text is well regarded for its real-world case database, which provides students with examples of workplace experience that add context to their learning. A practical, down-to-earth training manual for personal care workers in the contemporary health and community services environment, it also supports skill development and knowledge for the competencies and qualifications associated with the training package for aged care.

The fourth edition of Long-term Caring: Residential, Home and Community Aged Care is an ideal reference for students undertaking a Certificate III Individual Support and Certificate IV Ageing Support. Written by leading educators and practitioners from Australia and New Zealand, the text prepares students for all aspects of personal care in a variety of aged care
