SCP Foundation anomalies SCP-001 through to SCP-999, including containment procedures, experiment logs and interview transcripts. An encyclopedia of the unnatural. The Foundation Operating clandestine and worldwide, the Foundation operates beyond jurisdiction, empowered and entrusted by every major national government with the task of containing anomalous objects, entities, and phenomena. These anomalies pose a significant threat to global security by threatening either physical or psychological harm. The Foundation operates to maintain normalcy, so that the worldwide civilian

Online Library Gumdrop Case Manual

population can live and go on with their daily lives without fear, mistrust, or doubt in their personal beliefs, and to maintain human independence from extraterrestrial, extradimensional, and other extranormal influence. Our mission is three-fold: Secure The Foundation secures anomalies with the goal of preventing them from falling into the hands of civilian or rival agencies, through extensive observation and surveillance and by acting to intercept such anomalies at the earliest opportunity. Contain The Foundation contains anomalies with the goal of preventing their influence or effects from spreading, by either relocating, concealing, or dismantling such anomalies or by suppressing or preventing public dissemination of knowledge thereof. Protect The Foundation protects humanity from the effects of such anomalies as well as the anomalies themselves until such time that they are either fully understood or new theories of science can be devised based on their properties and behavior.

□□□□□□□□□□ About the ebook This ebook is an offline edition of the first series of fictional documentation from the SCP Foundation Wiki. All illustrations, subsections and supporting documentation pages are included. All content is indexed and cross-referenced. Essentially, this is what a SCP Foundation researcher would carry day-to-day in their Foundation-issued ebook reader. The text has been optimised for offline reading on phones and ebook readers, and for listening to via Google Play Book's Read Aloud feature. Tables have been edited into a format that is intelligible when read aloud, the narration will announce visual features like redactions and overstrikes, and there are numerous other small optimisations for listeners. The SCP text are a living work and the SCP documentation is a gateway into the SCP fictional universe, so links to authors, stories and media are preserved, and will open your reader's web browser. This work is licensed under a Creative Commons Attribution-ShareAlike 3.0 Unported License and is being distributed without copy protection. Its content is the property of the attributed authors.

Humoresque and Songs My Mother Taught Me are songs you will hear over the radio as you walk through a store or wait in a doctor's office. Dvorak's music is very popular and it is fun to be able to identify it as well as play it. As this is already Book 3 'Manatees' in the Scales Aren't Just a Fish Thing Gum Drop Note Series, I assume you know the drill. But just in case you are jumping in the deep end, let me explain how it works. Each note has its own color. A = Red B = Purple C = Brown (Chocolate) D = Gray E = Blue F= Orange G=Green Any sharp or flat is circled with the color it is moving toward. The stem of the note is the color of the string it is played on.

Bourree by Bach is one of the fun tunes Bach wrote for the people. It is a dance played in the villages as often as in the castles. As this is already Book 3 'Manatees' in the Scales Aren't Just a Fish Thing Gum Drop Note Series, I assume you know the drill. But just in case you are jumping in the deep end, let me explain how it works. Each note has its own color. A = Red B = Purple C = Brown (Chocolate) D = Gray E = Blue F= Orange G=Green Any sharp or flat is circled with the color it is moving toward. The stem of the note is the color of the string it is played on.

Scales Aren't Just a Fish Thing takes the study of music one step further and color-codes all the notes, adds music theory card games and play-along sheet music. Every student, no matter their age or learning style or difference, can easily move through the music and memorize as they go. Learning of difficult music theory concepts takes place through the silent clues: musical stems the color of the string the note is played, sharps and flats circled with the color of the note it is moving toward, color-coding of each note. No need for correction at your next lesson. Never practice incorrectly again with all the clues and

crutches offered with Scales Aren't Just a Fish Thing. As this is already Book 3 'Manatees' in the Scales Aren't Just a Fish Thing Gum Drop Note Series, I assume you know the drill. But just in case you are jumping in the deep end, let me explain how it works. Each note has its own color. A = Red B = Purple C = Brown (Chocolate) D = Gray E = Blue F= Orange G=Green Any sharp or flat is circled with the color it is moving toward. The stem of the note is the color of the string it is played on.

Gavotte by Martini is a long song with lots of sections. In order to memorize it efficiently and have a way of mentally putting it together, let's make a 'Dagwood' sandwich with all the parts. First, play games with the playing cards until each part is memorized. Then put it together. As this is already the series in 'Gum Drop Notes - Manatees - Book Three' I assume you know the drill. But just in case you are jumping in the deep end, let me explain how it works. Each note has its own color. A = Red B - Purple C = Brown (chocolate) D = Gray E = Blue F = Orange G = Green Any sharp or flat is circled with the color it is moving toward. The stem of the note is the color of the string it is played on.
