tension between the status of dance as a bodily expression of identity and its function as a cultural commodity within the economic life of modern day cities. This engaging work investigates the transnational movements of salsa by exploring the circulation of salsa within the Montreal dance scene, nourished by the continuous flow of a people, and examining the commodification of the Latino culture. Pietrobruno's analysis is singular in highlighting how the migration of a people and a dance represent displacements that are not always homologous. At the core of this work, Pietrobruno offers an extensive and intricate ethnography of the institutions and individuals involved in shaping the Montreal salsa scene that will appeal to academics and general audiences

Through interviews and ethnographic, multi-sited research in several European cities and Havana, the author draws on the notion of "entangled mobilities" to show how the intimate gendered and ethnicised moves on the dance floor relate to the cross-border mobility of salsa dance professionals and their students. A combination of research on migration and mobility with studies of music and dance, *Entangled Mobilities in the Transnational Salsa Circuit* contributes to the fields of
