Lesson: 1: Identifying Problems and Solutions in the Story

Problem and Solution is a pattern of organization where information in a passage is expressed as a dilemma or concerning issue (a problem) and something that was, can be, or should be done to remedy this issue (solution or attempted solution). The problem and solution text structure may seem like it would be easy to recognize, but it can be moderately difficult to identify because it is frequently confused with the

Analyzing community problems is a way of thinking carefully about a problem or issue before acting on a solution. It first involves identifying reasons a problem exists and then, identifying possible solutions and a plan for improvement. Example: The downtown area of a community is declining. Stores are closing, and moving out; no new stores are moving in.

environment. Such presentations occur at every level in an organization. Therefore, team leaders, supervisors, managers, and executives can all benefit from learning how to design and deliver powerful presentations that move decision makers to take action. The author blends his extensive business experience with current research on persuasion to provide a practical, applied approach to using the problem-solution pattern. An integrated case study provides examples for each step in the process. The end result is a useful, actionable guide that will

True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings
