Dimensions Answer: Dimensions developed a design that solves both of the problems with live edge tables. Our patent pending design blends together detailed castings taken from old growth trees, along with the high quality wood veneers and engineered wood materials to create a design that provides all the beauty that one would expect in a live edge table for 80% less than the cost of live edge ...

Dimensions
The aim was to improve the fit of school furniture sizes for European children. It was demonstrated statistically that the draft of a European standard does not cover the target population. No literature on design criteria for sizes exists, and in practice it is common to calculate the fit for only the mean values (P50).
