WHAT CAME FROM THE STARS by Gary D. Schmidt, Clarion, September 2012, 304p., ISBN: 978-0-547-61213-3 “In the end there’s just a song Comes crying like the wind Through all the broken dreams And vanished years”-- Garcia/Hunter, “Stella Blue” “‘See for yourself.’ said Mr. Burroughs, and they walked into the classroom. They didn’t have to open the door—Tommy thought this was pretty familiar—because the door had already been torn off, broken in two, and thrown down the hall.

What Came from the Stars by Gary D. Schmidt

"What Came from the Stars" is written in the third person, but the reader still gets a vivid sense of Tommy Pepper, the protagonist. This book could not have been written in first person, and Schmidt knew that. In third person, we can ache for Tommy's losses. If written in first person, he could have come across as a complainer or whiner.

My Love from the Star (Korean: ??? ? ??; RR: Byeoreseo on geudae; lit. You Who Came from the Stars) is a South Korean romantic fantasy television series written by Park Ji-eun and directed by Jang Tae-yoo. Produced by Moon Bo-mi and Choi Moon-suk, it stars Jun Ji-hyun, Kim Soo-hyun, Park Hae-jin, Yoo In-na, Shin Sung-rok, and Ahn Jae-hyun.

My Love from the Star - Wikipedia

What Came from the Stars is written with two parallel story lines—Tommy’s story in normal print and the Valorim’s story in italics—giving the book added depth and interest. This is a rich fantasy that draws the reader in from the first chapter and keeps hurtling along at a breakneck pace until the exciting and satisfying end.

Book Review - What Came from the Stars by Gary D. Schmidt ...

It came from the stars. It came on May 15th, 2014 and fell down from the sky as the only bright thing on a rainy night. It landed two miles from my house, and landed just close enough that I didn’t turn back enough and think it was no use, and just far enough that nobody would come all the way with me so I could prove it to them.

In a desperate attempt for survival, a peaceful civilization on a faraway planet besieged by a dark lord sends its most precious gift across the cosmos into the lunchbox of sixth-grader Tommy Pepper of Plymouth, Massachusetts. 75,000 first printing.

Kevin King’s debut novel, *All the Stars Came Out That Night*, is a vivid portrait of Depression-era America written in a voice at once humorous and poetic. Set at Boston’s Fenway Park on October 20, 1943, *All the Stars Came Out That Night* imagines a late-night baseball game bankrolled by Henry Ford, pitting Dizzy Dean’s all-white all-stars against Satchel Paige’s black all-stars. Not a contest waged for money or trophies, the outcome of this game carries with it both the weight of a historic injustice—the barring of blacks from baseball—and the promise of vindication and redemption. Steeped in baseball lore and featuring an array of iconic American figures—from Babe Ruth to Clarence Darrow—*All the Stars Came Out That Night* transcends the sport of baseball, creating a tale that is mythic, captivating, and above all, quintessentially American.

“Space is deep, Man is small and Time is his relentless enemy...” How far is too far? Alan Corday is about to find out. Corday is shanghaied aboard a craft bound for the stars... on a journey at the speed of light, the world he leaves behind fast vanishing into the past. And nothing in the dark, forbidding reaches of space can prepare him for the astounding discovery he will make upon his return from the stars. “This is indeed golden SF from the Golden Age.” —Publishers Weekly Starred Review

Read Book What Came From The Stars Gary D Schmidt

A family saga--told in a captivating narrative that leaps forwards and backwards in time--of one family's struggle to survive in the rural United States over 100 years. Carol was thirteen when her daddy lost her in a game of cards. One year later--pregnant and with nowhere to go--she is taken in by Bessie and Martha, who run a secret refuge for "lost women." Fifty years on in the same small Kentucky town, Carol's thirteen-year-old grandson rides his BMX and watches wrestling, mesmerized by 1980s excess, while his community fights to stay employed in factories and on farms. Simon Van Booy has woven the many struggles and small triumphs of three generations of a single Kentucky family into an intimate portrayal of American life that includes the Depression, war, faith, the hardship of women, racial prejudice, and rural disenfranchisement. Van Booy captures the distinctive voices of each generation, time and again revealing the sacred bonds of family and friendship in times of crisis. With stark, poetic clarity, *Night Came with Many Stars* is a captivating journey through one century that reveals an America rarely seen.

Now a New York Times and USA Today bestseller! Winner of Best Science Fiction in the 2020 Goodreads Choice Awards! *To Sleep in a Sea of Stars* is a brand new epic novel from #1 New York Times bestselling author of *Eragon*, Christopher Paolini. Kira Navárez dreamed of life on new worlds. Now she's awakened a nightmare. During a routine survey mission on an uncolonized planet, Kira finds an alien relic. At first she's delighted, but elation turns to terror when the ancient dust around her begins to move. As war erupts among the stars, Kira is launched into a galaxy-spanning odyssey of discovery and transformation. First contact isn't at all what she imagined, and events push her to the very limits of what it means to be human. While Kira faces her own horrors, Earth and its colonies stand upon the brink of annihilation. Now, Kira might be humanity's greatest and final hope . . . A retelling of the Navajo legend that explains the patterns of the stars in the sky.

Living with the Stars describes the many fascinating connections between the universe and the human body, which range from the makeup of DNA and human cells, growth and aging, to stellar evolution and the beginning of the universe. This popular science book should be of interest to anyone who wonders about the processes going on in our human bodies that connect us to our environment on Earth, to the Solar System, to the stars in our Galaxy, and even to the origin of the universe.

Have you ever wondered how the stars came to be in the sky? The Fisherman's Daughter loved to dance in the sunlight, and bathe in the glow of the moon. But when the moon disappeared for a few nights each month, she worried about her father and how he would find his way home from the sea in the deep darkness. When the sun finds her sobbing one night, he takes one of his rays and shatters it onto the ground, creating the stars and giving the girl the task of putting them into the dark night sky. This beautifully illustrated story gives us a new folk tale, and a new way to look up at the night sky.

In a desperate attempt for survival, a peaceful civilization on a faraway planet besieged by a dark lord sends its most precious gift across the cosmos into the lunchbox of sixth-grader Tommy Pepper of Plymouth, Massachusetts.
