Purple. The foundation of an influential trade in a Roman world dominated by men. One woman rises up to take the reins of success in an incredible journey of courage, grit, and friendship. And along the way, she changes the world. But before she was Lydia, the seller of purple, she was simply a merchant's daughter who loved three things: her father, her ancestral home, and making dye. Then unbearable betrayal robs her of nearly everything. With only her father's secret formulas left, Lydia flees to Philippi and struggles to establish her business on her own. Determination and serendipitous acquaintances—along with her father's precious dye—help her become one of the city's preeminent merchants. But fear lingers in every shadow, until Lydia meets the apostle Paul and hears his message of hope, becoming his first European convert. Still, Lydia can't outrun her secrets forever, and when past and present collide, she must either stand firm and trust in her fledgling faith or succumb to the fear that has ruled her life.

One day in 1986, Laura Schroff, a busy ad sales executive, passed an eleven-year-old boy panhandling on the street. She stopped and offered to take him to McDonald's for lunch. Twenty years later, at Laura's fiftieth birthday party, Maurice Mazyck gave a toast, thanking Laura for her act of kindness, which ended up changing the course of his life. In that toast, Maurice said that when Laura stopped on that busy street corner all those years ago, God had sent him an angel. Laura's invisible thread journey has deepened her belief that angels -- divine and otherwise -- are all around us. After her previous book was published in 2011, readers from around the country and world began sharing with Laura their own stories about how chance encounters with strangers have changed their lives. From a woman who saved a life simply by buying someone a book, to a financier who gave a stranger the greatest gift of all, to a teacher who chose a hug over discipline and changed a lost boy's future -- Angels on Earth will introduce a series of remarkable people whose invisible thread stories will move, surprise, and inspire readers.

Laurell K. Hamilton. Meet Detective Zaniel Havelock, a man with the special ability to communicate directly with angels. A former trained Angel speaker, he devoted his life to serving both the celestial beings and his fellow humans with his gift, but a terrible betrayal compelled him to leave that life behind. Now he's a cop who is still working on the side of angels. But where there are angels, there are also demons. There's no question that there's evil at work when he's called in to examine the murder scene of a college student—but is it just the evil that one human being can do to another, or is it something more? When demonic possession is a possibility, even angelic protection can only go so far. The race is on to stop a killer before he finds his next victim, as Zaniel is forced to confront his own very personal demons, and the past he never truly left behind. The first in a new series from the author of the Anita Blake and Merry Gentry series.

#1 NEW YORK TIMES BESTSELLER * An intimate and revealing portrait of civil rights icon and longtime U.S. congressman John Lewis, linking his life to the painful quest for justice in America from the 1950s to the present--from the Pulitzer Prize-winning author of *The Soul of America* **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST AND COSMOPOLITAN** John Lewis, who at age twenty-five marched in Selma, Alabama, and was beaten on the Edmund Pettus Bridge, was a visionary and a man of faith. Drawing on decades of wide-ranging interviews with Lewis, Jon Meacham writes of how this great-grandson of a slave and son of an Alabama tenant farmer was inspired by the Bible and his teachers in nonviolence, Reverend James Lawson and Martin Luther King, Jr., to put his life on the line in the service of what Abraham Lincoln called "the better angels of our nature." From an early age, Lewis learned that nonviolence was not only a tactic but a philosophy, a biblical imperative, and a transforming reality. At the age of four, Lewis, ambitious to become a minister, practiced by preaching to his family's chickens. When his mother cooked one of the chickens, the boy refused to eat it--his first act, he wryly recalled, of nonviolent protest. Integral to Lewis's commitment to bettering the nation was his faith in humanity and in God--and an unshakable belief in the power of hope. Meacham calls Lewis "as important to the founding of a modern and multiethnic twentieth- and twenty-first-century America as Thomas Jefferson and James Madison and Samuel Adams were to the initial creation of the Republic itself in the eighteenth century." A believer in the injunction that one should love one's neighbor as oneself, Lewis was arguably a saint in our time, risking limb and life to bear witness for the powerless in the face of the powerful. In many ways he brought a still-evolving nation closer to realizing its ideals, and his story offers inspiration and illumination for Americans today who are working for social and political change.

"An authentic cry of American innocence . . . The author seizes the reader with a Southern gift for storytelling and never lets go."—Time Magazine It is the mid-1950s in Quarrytown, Georgia. In the slum known as the Ape Yard, hope's last refuge is a boardinghouse where a handful of residents dream of a better life. Earl Whitaker, who is white, and Tio Grant, who is black, are both teenagers, both orphans, and best friends. In the same house live two of the most important adults in the boys' lives: Em Jojohn, the gigantic Lumbee Indian handyman, is notorious for his binges, his rat-catching prowess, and his mysterious departures from town. Jayell Crooms, a gifted but rebellious architect, is stuck in a loveless marriage to a conventional woman intent on climbing the social ladder. Crooms's vision of a new Ape Yard, rebuilt by its own residents,

unites the four—and puts them on a collision course with a small-town Machiavelli who rules the community like a feudal lord. Jeff Fields’s exuberantly defined characters and his firmly rooted sense of place have earned *A Cry of Angels* an intensely loyal following. Its republication, more than three decades since it first appeared, is cause for celebration. “A humdinger . . . even better than *To Kill a Mockingbird* . . . funny, touching, and gripping.”—*Chicago Daily News*
“Heartwarming . . . We find ourselves wondering why delightful novels like this aren’t written anymore, and grateful that this one has come along to fill the void.”—*The New York Times* “A flooded-with-life novel with a story to tell and characters to be cherished.”—*Boston Sunday Globe*

Coretta Scott King winner Andrea Davis Pinkney brings her talents to a brand-new *Dear America* diary about the Civil Rights Movement. In the fall of 1955, twelve-year-old Dawn Rae Johnson's life turns upside down. After the Supreme Court ruling in *Brown v. Board of Education*, Dawnie learns she will be attending a previously all-white school. She's the only one of her friends to go to this new school and to leave the comfort of all that is familiar to face great uncertainty in the school year ahead. However, not everyone supports integration and much of the town is outraged at the decision. Dawnie must endure the harsh realities of racism firsthand, while continuing to work hard to get a good education and prove she deserves the opportunity. But the backlash against Dawnie's attendance of an all-white school is more than she's prepared for. When her father loses his job as a result, and her little brother is constantly bullied, Dawnie has to wonder if it's worth it. In time, Dawnie learns that the true meaning of justice comes from remaining faithful to the integrity within oneself.

According to most recorded history, women in the ancient world lived invisibly. Piecing together their story from the few contemporary accounts that have survived required painstaking detective work by Cooper, but it renders the past and the present in a new light. *Band of Angels* tells the remarkable story of how a new understanding of relationships took root in the ancient world. Women from all walks of life played an invaluable role in Christianity's rapid expansion. Their story is a testament to what unseen people can achieve, and how the power of ideas can change the world, on household at a time.

From the *New York Times* best-selling author and host of *Hidden Brain* comes a thought-provoking look at the role of self-deception in human flourishing. Self-deception does terrible harm to us, to our communities, and to the planet. But if it is so bad for us, why is it ubiquitous? In *Useful Delusions*, Shankar Vedantam and Bill Mesler argue that, paradoxically, self-deception can also play a vital role in our success and well-being. The lies we tell ourselves sustain our daily interactions with friends, lovers, and coworkers. They can explain why some people live longer than others, why some couples remain in love and others don't, why some nations hold together while others splinter. Filled with powerful personal stories and drawing on new insights in psychology, neuroscience, and philosophy, *Useful Delusions* offers a fascinating tour of what it really means to be human.
